

Project Management Professional PMP®

Objectives

From the Pyramids of Giza to the Placement of the International Space Station into Earth's orbit, Project Management were the magic tool used during hundreds of years to deliver fascinating products. During the last few decades, the Project Management evolved into a recognized profession, and PMI® developed and published A Guide to the Project Management Body of Knowledge (*PMBOK® Guide*) that describes the knowledge within the profession of project management and includes proven traditional practices as well as innovative practices that are emerging in the profession.

This course will present and discuss in detail the *PMBOK® Guide* with focus on helping the attendees to set for the Project Management Professional *PMP®* certification Exam.

Who should attend?

- Professionals seeking comprehensive knowledge on Project Management
- Professionals seeking PMP® certification from PMI®

Duration

Thirty-Five (35) hours of formal Project Management education needed as a prerequisite of the PMP® Credential.

Language

The course material is delivered in English. It could be supplied in different languages upon request

Certificate

Participants will receive attendance certificates upon the completion of the workshop. Participants will be awarded 35 Contact hours needed to complete the requirements to set for the PMP® Exam.

Please note that the participants will pursue the examination and certification process independently and individually. The trainer will be ready to offer advice.
