# How to use this coursebook

Each unit of this book is divided into sections, with clear, practical **goals** for learning.

The first five pages of the unit help you build your language skills and knowledge. These pages include speaking, listening, reading, writing, grammar and vocabulary activities. They also include **Classroom language** and **Sounds and spelling** activities. They are followed by a **Target activity** which will help you put together what you have learned.

Then there is a **Keyword** section, which looks at the most common and useful words in English. This is followed by an **Explore speaking** or **Explore writing** task, and an **Across cultures** activity. These sections give you extra language and skills work, all aiming to help you become a better communicator in English and a more effective learner.

The **Look again** section takes another look at the target language for the unit, helping you to review and extend your learning.

This symbol shows you when you can hear and practise the correct pronunciation of key language, using the audio CD.

The **e-Portfolio** DVD-ROM contains useful reference material for all the units, as well as self-assessment to help you test your own learning, and Wordcards to help you test your vocabulary learning.

You can do more practice by yourself using the **Self-study Pack**, which includes a workbook and interactive DVD-ROM.

The DVD-ROM contains video and over 200 interactive activities.
